6. CONTINGENCIES

Neither party shall be responsible for its failure to perform due to causes beyond its reasonable control such as acts of God, fire, theft, war, riot, embargoes or acts of civil or military authorities. If delivery of Items or the performance of Services is to be delayed by such contingencies, Seller shall immediately notify Buyer in writing. If the delay is greater than thirty (30) days from the date of the notice, Buyer will have the option, in its sole discretion, to either (i) extend time of delivery or performance, or (ii) terminate the uncompleted portion of the order at no cost of any nature to Buyer.

Late deliveries of any Items except Spare Parts (as measured by adherence to the Ship Date on the most recent Release or contractually committed lead-time, whichever is earlier) will result in, at Buyer's option, a price reduction (or debit to Seller's account) on such late Items of 1percent (1%) for each calendar day capped at ***. In addition, Seller shall deliver, at its sole cost and expense, any late shipment of Items by expedited freight as instructed to Buyer's site. Early deliveries of Items (as measured by adherence to the Promise Date on the most recent Release) will result in a price reduction of *** for each calendar day that an Item is delivered early. Partial deliveries are counted as late shipments and will only be considered complete when all Items have been shipped. Equipment shipments will not be considered complete until the Environmental Health and Safety documentation outlined in Section 15 has been completed and provided to Buyer. Configuration and other Buyer-requested or Buyer-approved changes that result in Designated Delivery Date changes will be reflected on a change order to the Release. For new Equipment, late delivery penalties only apply after global acceptance is granted and the CE! configuration is defined. Late charges against Seller do not apply in situations where, upon the Designated Delivery Date, late shipment is the fault of the Buyer designated carrier and not the Seller. All remedies will be reconciled and settled in the quarter following the quarter in which late deliveries occurred.
- F. Seller agrees to reserve production capacity equal to Buyer's delivery Forecasts until the contractual lead-time established in Addendum A or any other Equipment-specific Addendum.
- G. At Buyer's discretion, Seller will make available burst capacity up to *** of the last quarters Equipment purchases (minimum one) for shipment within *** of the contractual un-forecasted lead-time from Release date. This provision may be applied once every *** days as defined in Addendum A for each type/configuration of Equipment.
- H. Seller will, as required by Buyer, participate in Buyer's forecasting process, and Buyer will supply a rolling Forecast of required delivery dates to the Seller at such times and for such periods as may be determined by Buyer.

- I. Configuration and other Buyer-requested or Buyer-approved changes that result in Ship Date changes will be reflected on a change order to the Release showing the revised ship and delivery dates subject to Section 7E.
- J. Seller will notify Buyer in writing of the planned obsolescence of any Item or part revision. Seller will make that Item available to the Buyer for a minimum of *** days after the notice, during which time Buyer will have the option to place a final Release for such Items for delivery after the *** day notice. Buyer may return obsolete Items within *** days after written notification of part revision or obsolescence, at no cost. If any warranty return claims are made for such discontinued Items, then such returns will be subject to the warranty provisions in Section 8.

8. ACCEPTANCE AND WARRANTIES

- A. All Items purchased by Buyer are subject to inspection and test (source inspection) before being allowed to ship from Seller's factory. Source inspection requirements are described in the Purchase Spec unless agreed otherwise in writing by the parties. Seller shall be responsible for source inspections and shall provide Buyer with written certification that Items tested have passed source inspection and comply in all respects with the requirements described in the Purchase Spec. Buyer may participate, as it deems necessary, in source inspections. If any inspection or test is made on Seller's premises, Seller shall provide Buyer with reasonable facilities and assistance at no additional charge.
 - (i) Notwithstanding any source inspection or testing at Seller's premises, all Items purchased by Buyer are subject to Buyer's inspection and test (qualification) before final acceptance at Buyer's premises. Final acceptance requirements are described in the Purchase Spec unless agreed otherwise in writing by the parties. Items, other than Equipment, rejected by Buyer as not conforming to the Purchase Spec may be returned to Seller at Seller's risk and expense and, at Buyer's option, such Item shall be immediately repaired or replaced.
 - (ii) If Equipment does not pass final acceptance criteria, due to no fault of Buyer, within *** days of delivery, then Buyer may give written notice to Seller of failure to meet final acceptance criteria on time. If Equipment does not meet final acceptance criteria within *** days of such notice, Buyer may, at Buyer's option; (a) return the Equipment for full credit or (b) have the Equipment replaced with new Equipment within *** of contractual lead-time of Buyer's written election of option, or (c) initiate Buyer's escalation procedures per Addendum D (Services) Section 8 (Escalation).
 - (iii) Acceptance and/or inspection by Buyer shall in no event constitute a waiver of Buyer's rights and remedies with regard to any subsequently discovered defect or nonconformity.
- B. Seller warrants to Buyer that all Items provided by Seller for delivery hereunder shall conform in all respects to the Purchase Spec; be free from defects in material and workmanship and be new, of the grade and quality specified.
 - (i) If an Item delivered hereunder does not comply with any of the above warranties, Buyer shall notify Seller as soon as practicable and at Buyer's option, Seller shall repair or replace the defective Item, at its sole cost and expense, or refund the purchase price. Seller shall also be responsible for and pay the cost of shipping of all Items not conforming to the warranties and will bear the risk of loss of such Items while in transit and any other costs reasonably associated with a nonconforming Item, such as, the cost to de-install the Item.
 - (ii) The warranty period for Equipment shall apply for *** years for legacy and *** and *** years for new development (both Non-consumables and Service) starting from the date of final acceptance of the Equipment. The warranty for additional Service, Equipment conversion kits, Equipment upgrades or Equipment modifications shall apply for *** years from the date of installation of the Item or for the Item's remaining warranty period, whichever is longer. The warranty for additional Spare Parts shall apply for *** year for non-consumables beginning from the date of installation and 1 year from date of receipt for consumables. Seller shall perform warranty work *** hours per day, *** days per week. Seller will offer and Buyer may purchase additional periods of warranty. Consumables are guaranteed for good workmanship and functionality upon arrival at Buyers facility. In case of initial failure, Buyer has responsibility to show conclusive data that a given consumable part did not function upon arrival.
 - (iii) In conjunction with the warranty period, Seller shall perform all preventative maintenance on a mutually agreeable schedule. Seller shall train Buyer personnel on all preventative maintenance and recommended scheduling.

(iv) At Buyer's option the labor value of the warranty, or the purchase price of an extended warranty (if purchased with the Equipment), can be credited against a Service contract prior to the end of the warranty period. All warranty terms will continue to apply throughout the term of any Service contract or extended warranty period.

- C. Seller further warrants that all Items furnished hereunder will not infringe any third party's intellectual property rights, and that Seller has the necessary right, title, and interest to provide said Items and Services to Buyer free of liens and encumbrances.
- D. All of the above warranties shall survive any delivery, inspection, acceptance, payment, or resale of the Items.
- E. Seller warrants that all Services provided shall be performed in accordance with good workmanlike standards and shall meet the descriptions and specifications provided on Addendum B or a Service level agreement. Seller shall guarantee workmanship for *** year after Services are provided unless agreed otherwise in writing by the parties. Seller shall promptly correct any non-conforming or defective workmanship at no additional cost to Buyer.

9. PURCHASE SPECIFICATIONS, IDENTIFICATION AND ERRATA

- A. Seller shall not modify the purchase specifications for any Item or Services without the prior written approval of the Buyer.
- B. Seller shall cooperate with Buyer to provide configuration control and traceability systems for Items and Services supplied hereunder.
- C. Seller shall provide Buyer with an errata list for Item and shall promptly notify Buyer in writing of any new errata with respect to the Item.

10. PACKING AND SHIPMENT

- A. All Items shall be prepared for shipment in a manner which: (i) follows good commercial practice, (ii) is acceptable by common carriers for shipment at the lowest rate, and (iii) is adequate to ensure safe arrival. If Buyer requests, Seller will package Items for clean room delivery per the Purchase Spec. Seller shall mark all containers with necessary lifting, handling, unpacking and shipping information, Release number, Buyer's Item Identification number or part number, description, line item number, date of shipment and the names of the Buyer and Seller.
- B. All Items shall be shipped Free Carrier, Seller's Dock (FCA: Seller's Dock, Incoterms 2000). Buyer shall notify Seller of the method of shipment and expected delivery date. If no instructions are given, Seller shall select the most cost effective carrier based upon Buyer's required delivery date. Title and risk of loss to Equipment shall pass to Buyer upon delivery to the FCA point.

11. OWNERSHIP AND BAILMENT RESPONSIBILITIES

- A. Any specifications, drawings, schematics, technical information, data, tools, dies, patterns, masks, gauges, test equipment and other materials furnished to Seller by Buyer or Items paid for by Buyer and being held by Seller shall (i) remain or become Buyer's property, (ii) be used by Seller exclusively for Buyer's orders, (iii) be clearly marked as Buyer's property, (iv) be segregated when not in use, (v) be kept in good working condition at Seller's expense, and (vi) be shipped to Buyer promptly on Buyer's demand or upon termination or expiration of this Agreement, whichever occurs first. Any such property furnished by Buyer to Seller that is marked or otherwise noted by Buyer as being confidential information will be treated by Seller in accordance with Section 12 hereafter.
- B. Seller shall be liable for any loss of or damage to Buyer's property while in Seller's possession or control, ordinary wear and tear excepted.

12. CONFIDENTIALITY AND PUBLICITY

- A. During the course of this Agreement, either party may have or may be provided access to the other's confidential information and materials. All confidential or proprietary information and materials disclosed to the other party hereunder shall be disclosed in accordance with the requirements of the Corporate Non-Disclosure Agreement ("CNDA") referenced on the signature page of the Agreement. Each party agrees to maintain such confidential information in accordance with the terms of the Agreement and the CNDA and any other applicable separate nondisclosure agreement between Intel and Supplier. At a minimum each party agrees to maintain such information in confidence and limit disclosure on a need to know basis, to take all reasonable precautions to prevent unauthorized disclosure, and to treat such information as it treats its own information of a similar nature, until the information becomes rightfully available to the public through no fault of the non-disclosing party. Seller's employees who access Buyer's facilities may be required to sign a separate access agreement prior to admittance to Buyer's facilities.

- B. If access is necessary and directly related to Seller's scope of work or duties, Seller's employees, agents or subcontractors may be granted authorization to use or access Intel information, software, or telecommunications by Buyer's information owner.
